

1. Customer & Site Details

Customer name: _____ Survey date: _____

Phone / WhatsApp: _____ Alternate phone: _____

Email: _____ Preferred visit time: _____

Installation address: _____

Landmark: _____ City / PIN: _____

2. Property & Access Information

Property type: ☐ Independent house ☐ Apartment ☐ Commercial ☐ Other

Tank access: ☐ Stairs ☐ Fixed ladder ☐ Portable ladder ☐ Restricted

Roof / tank platform height from ground: _____ **Safe working space?** ☐ Yes ☐ No

Site hazards (tick all that apply): ☐ Open edge ☐ Slippery roof ☐ Overhead cable ☐ None

Other access / safety notes: _____

3. Existing Water System

Water source: ☐ Municipal ☐ Borewell ☐ Tanker ☐ Sump ☐ Other

Pump operation: ☐ Manual ☐ Automatic ☐ Existing controller ☐ Not known

Pump rating (HP / kW): _____ Pump location: _____

Rising-main pipe size / material: _____ Approx. pipe run: _____

Current issues: ☐ Overflow ☐ Dry run ☐ Low pressure ☐ Uneven filling ☐ None

Existing valves / automation / issue details: _____

4. Tank Configuration - Measure from the Same Reference Level

Tank 1 (higher / primary, if applicable)

Tank capacity (litres): _____

Tank base elevation (m): _____

Tank top elevation (m): _____

Inlet pipe size / location: _____

Outlet pipe size / location: _____

Overflow route / condition: _____

Tank 2 (lower / secondary, if applicable)

Tank capacity (litres): _____

Tank base elevation (m): _____

Tank top elevation (m): _____

Inlet pipe size / location: _____

Outlet pipe size / location: _____

Overflow route / condition: _____

INSTALLATION REQUIREMENTS & APPROVAL

5. Different-Height Tank Assessment

Vertical difference between tank bases: _____ Difference between maximum water levels: _____

Are tank bottoms interconnected? ☐ Yes ☐ No Does lower tank overflow? ☐ Yes ☐ No

Preferred control approach (installer recommendation):

☐ Independent float sensors / valves ☐ Motorized zone valves ☐ Transfer pump
☐ Non-return valves ☐ Common controller with level logic ☐ Raise / relocate lower tank

Recommended hydraulic arrangement and reason: _____

6. Electrical, Signal & Device Placement

Power near controller: ☐ Available ☐ Required Supply voltage: _____

Earthing available: ☐ Yes ☐ No Weatherproof enclosure needed: ☐ Yes ☐ No

Connectivity at device: ☐ Wi-Fi good ☐ Wi-Fi weak ☐ Mobile data ☐ Offline only

Proposed controller location: _____ Cable route length: _____

Sensor type / mounting point for Tank 1: _____

Sensor type / mounting point for Tank 2: _____

7. Material & Work Estimate

Item / work description	Qty	Remarks

8. Customer Requirements, Consent & Sign-off

Requested features: ☐ Auto ON/OFF ☐ Overflow alert ☐ Dry-run protection ☐ App alert

Special requirements / preferred installation date: _____

Customer confirms that site details are accurate and authorizes the installer to prepare a quotation.

Final installation, drilling, electrical work, and material changes require separate approval before work begins.

Customer name: _____ Installer name: _____

Customer signature: _____ Installer signature: _____

Date: _____ Quotation / job reference: _____
